**PETITION UNDER 37 CFR 1.497 TO CORRECT INVENTORSHIP**

This is a response to the Decision on Declaration mailed December 12, 2006. The Decision correctly observed that more inventors were listed on the declaration than appeared on the published international application. One alternative solution suggested was to file a petition under 37 CFR 1.497.

Accordingly, we request that inventors Jentgens, Lehmann and Frei be added as named inventors. We include the declaration in compliance with 37 CFR 1.497(a), and also statements complying with 37 CFR 1.497(b) and (d)(1) of each omitted inventor, verifying there was no deceptive intention on his part.

Please charge the processing fee set forth in 37 CFR 1.17(i) and any other fee required to Deposit Account 19-2110.

An assignment to Sia Abrasives Industries AG was previously recorded at reel 017061, frame 0921; therefore, we also enclose Sia Abrasives Industries AG's consent to the correction of inventorship.

Respectfully submitted,

---

**DECLARATION FOR PATENT APPLICATION**

As the inventors named below, we declare that:

We believe we are the joint original and first inventors of the subject matter which is claimed and for which a patent is sought in application Ser. No. 10/558153, entitled "Method for Producing Compressed, Plastic-Coated Rovings";

We have reviewed and understand the contents of the above-identified specification, including the claims thereof, as amended by any amendment specifically referred to above;

We claim priority under 35 USC 119 from Swiss Patent Application No. 0931/03, filed May 23, 2003, which was the first application for patent on this invention;

We acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to us to be material to patentability as defined in 37 CFR 1.56, including material information which became available between the filing date of the prior application and the National or PCT International filing date of the continuation-in-part application, if applicable; and

All statements made herein of our own knowledge are true, all statements made on information and belief are believed to be true, and these statements are made with the knowledge that the making of willful false statements or the like is punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and may jeopardize the validity of the application or any patents issued thereon.

**POWER OF ATTORNEY:** We hereby appoint all practitioners associated with Customer Number 26936 (Shoemaker and Mattare) as our attorneys to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith.
